HPFI® Introduces PowerFlex Power Accessories

HPFI® (High Point Furniture Industries) is pleased to introduce a wide array of power and charging solutions in the **PowerFlex** collection. A/C power receptacles and active USB ports are a necessity to support the prevalent mobile devices in every work and higher education environment. **PowerFlex** offers built-in and add-on solutions for workstations, tables and even seating. Workstation and table versions are standard with a 6' cord with molded plug, but are available with modular cable connectors that can be daisy chained together in training rooms or hard-wired into permanent installations.

Also included in the **PowerFlex** collection are the KwikBoost™ brand of freestanding and table top/wall mountable charging stations and built-in charging kits. KwikBoost incorporates a patent-pending, energy efficient technology that recharges mobile devices at four-times the speed of a conventional charger. Each charger features cable connections to fit over 95% of smart phones and tablets. The freestanding and table top/ wall mountable units feature a customizable 18" x 9" graphic area ideal for company and school logos.

HPFI operates in two manufacturing facilities in High Point, North Carolina with over 440,000 square feet of manufacturing space. With roots in High Point, the furniture capital of the world, HPFI combines the skill and expertise of seasoned furniture craftspeople with modern day technology to deliver exceptional value to its customers.

For more information, please contact Tom Carrigan, Vice President of Marketing, 1104 Bedford Street, High Point, North Carolina 27263, Telephone: 336-431-7101 Ext 2241, Fax: 336-431-0673, Email: TomC@hpfi.com.
