

Bedford

Goes Great with Work.®

Executive furnishings with the influence of generations...

Bedford brings old world excellence to the modern office with a complete collection of office, conference and reception solutions. High-gloss, high-pressure laminate tops have solid hardwood edges. Bridges and returns feature common grain direction and reverse coped edges. Breakfront pedestal design accented with picture-frame molding and double-rosette metal pulls. Modern function with pencil/box/file drawers, writing shelves, full-extension file drawers, pre-installed legal/letter filing hardware and smooth-action, steel ball-bearing drawer slides. Multiple accessory pieces, such as wardrobe/storage, wall units and bookcases have a 77" vertical height with solid hardwood crown molding.

Bedford presents an extensive collection of traditional designs, responding to modern office requirements. Striking Windsor Cherry (shown here) offers a subtle grain pattern and rich, reddish brown hue, bringing contemporary appearance to historical design influences. Most models in Mahogany available on Quick Ship.

Three-Drawer
 Lateral File provides
 extensive easy-to-reach filing.
 Pre-installed filing hardware
 quickly adjusts to individual
 preferences. Anti-tilt
 mechanism standard.

TRWC3036DF

Writing shelves conveniently extend work area when required. Standard on all desk pedestals.

Pre-Installed filing system is ready for easy user adjustment to provide letter or legal filing on desks and lateral files.

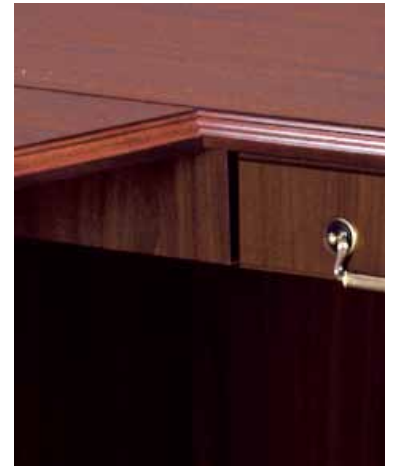

Wire management grommets located in modesty panels of most returns, bridges, and credenzas for easy routing of phone/data/electrical wires.

Solid hardwood edges are shaped and finished for handcrafted appearance, complementing 1-3/16" thick high-gloss, high-pressure laminate tops.

Crown molding enhances traditional design. Featured on front and sides of hutches, bookcases and wardrobes and front only of wall units built for side-by-side connection.

Bridges and Returns feature common grain direction with desks and credenzas and reverse coped edge detail on connecting ends for a continuously smooth work surface.

Storage & Filing

Wall Units with or without doors feature two fixed and three adjustable shelves that adjust every 1-1/4" for maximum storage flexibility. All shelves are 1" thick, providing enhanced long-term durability and stability. Crown molding is on front only and can be ordered with solid end panels or prebored for side-to-side connection with hardware included.

Hutches, Bookcases and Wardrobe/Storage Units feature crown molding on three sides for freestanding use. Bookcases offer the same multi-adjustable, 1" thick shelves.

Lateral Files feature heavy-duty, full-extension drawer slides to optimize drawer space. Pre-installed filing hardware provides legal and/or letter filing and allows easy user adjustment. Also features single-key locking for security and anti-tilt mechanisms for safety.
