Adjustable Height

We've been hearing that "sitting is the new smoking". Sitting for long stretches every day does have a number of health consequences. The latest implication is that more time you spent sedentary can impact your brain health as well as physical health. You don't have to move very much - just standing can help.

Standing can increase blood flow to the brain to facilitate thinking. But doing office or school work while standing conflicts with what we were previously taught. Maybe it was wrong to "sit down and focus". Maybe it is time stand up and **Boost** your creativity and thinking.

Boost tables feature adjustable height work surfaces for easy transition from sitting to standing position. They are available in single or dual stage with "T" or a cantilevered "C" style leg.

- Single stage leg adjusts from 28" - 47" overall table height
- Dual stage leg adjusts from 25" - 49" overall table height
- Travel speed of 1-3/8" per second
- 1" thermal fused laminate tops with matching 3mm edge banding
- Steel legs include adjustable floor glides
- Basic up/down switch is standard; programmable switch optional
- Power consumption less than .3 watts
- Noise level less than 50 db

- Maximum load rating 200 lbs.
- Some assembly required

High pressure laminate tops with matching or black edge available for 15% up charge and extended lead time of six (6) weeks.

CARE AND CLEANING
Normal cleaning: Clean using a soft cloth and a good window cleaner which contains no ammonia, followed by wiping dry using a dry soft cloth.

Standard lead time 4 weeks.

Specifications subject to change without notice.

Single Stage "T" Legs
