

Flex Tiered Seating offers comfortable, multi-level seating for groups to gather for impromptu meetings or casual gatherings. Ideal for classroom, conference room, lounge or open atrium areas. Flex makes perimeter spaces useful. Two- and three-tier options plus the two-tier corner modules may be grouped and re-configured to create a variety of seating spaces.

Upholsteries used on the tiered surfaces (front) require a Seam Slippage rating of 40 lbs. on the warp. Contact HPFi for [further details](#).
