Press Release

For Immediate Release

HPFi[®] Atlas Casegoods and Tables Discontinued

Due to a number of supply issues beyond our control, HPFi must discontinue the complete line of [Atlas casegoods](#) and [tables](#). This action is specifically related to the 1.5" thick top material and does not impact any other HPFi [contemporary](#), [transitional](#) or [traditional](#) casegoods.

Atlas series products are available only while 1.5" thick top materials are available. Unfortunately, Mahogany finish 1.5" thick tops are already depleted. We have approximately a 2-month supply of Fusion Maple (FM) and Windsor Cherry (WC) boards to produce the Atlas 1.5" thick tops.

Both the [Atlas casegoods](#) and [Atlas tables](#) price lists have been updated to reflect this discontinuance.

We regret this short notice. Please contact your [local sales representative](#) or the HPFi [Customer Service team](#) for availability of Maple or Cherry finish in Atlas casegoods and tables.

HPFi is an American manufacturer that responds and adapts to an ever-changing market to efficiently build commercial grade products with speed, accuracy and value. HPFi operates a 4,100 sq. ft. showroom and over 400,000 square feet of manufacturing space in two manufacturing facilities in High Point, North Carolina. With roots in High Point, the furniture capital of the world, HPFi combines the skill and expertise of seasoned furniture craftspeople with modern day technology to deliver exceptional value to its customers.
