HPFi® Products Retain level® 2 Certification

HPFi® (High Point Furniture Industries) is pleased to announce that all of its certified products have retained their **level® 2** certification. SCS Global Services completed their annual audit in March 2017 to the ANSI/BIFMA e3 Furniture Sustainability Standard. Developed by BIFMA, level is a voluntary program in which third-party certification bodies measure a product and its producer against the ANSI/BIFMA e3 Furniture Sustainability Standard. The level program was created to provide the most comprehensive, unbiased and transparent means of evaluating and communicating the environmental and social impacts of commercial furniture products. The level mark demonstrates that the product, the manufacturing facility and the company responsible for the product brand have all met the requirements for certification.

“Retaining level 2 certification on our products is a significant achievement for HPFi” according to Doug Gaines, Vice President of Sales at HPFi. “A commitment to an environmentally-friendly production platform is extremely important to the future viability of the furniture industry as a whole. This announcement of level 2 certification is a good example of our focus and commitment towards sustainability.”

Copies of the certificates of compliance are posted on the [Sustainability](#) page of the HPFi web site at <http://www.hpfi.com>, on the BIFMA web site at <http://levelcertified.org> and the SCS web site at <http://www.scsglobalservices.com/bifma-level>.

HPFi operates a 4,100 sq. ft. showroom and two manufacturing facilities in High Point, North Carolina with over 440,000 square feet of manufacturing space. With roots in High Point, the furniture capital of the world, HPFi combines the skill and expertise of seasoned furniture craftspeople with modern day technology to deliver exceptional value to its customers.

SCS Global Services has been a global leader in third-party environmental and sustainability certification, auditing, testing and standards development for nearly thirty years. SCS programs span a wide cross-section of sectors, recognizing exemplary performance in natural resource management, green building, product manufacturing, food and agriculture, retailing and more. SCS is a Certified B Corporation™, reflecting its commitment to socially and environmentally responsible business practice.
