Office Seating

The **ETC** chair features a thin profile, compound curved mesh back with a height adjustable lumbar support. The full size seat has an adjustable seat slider to fit a greater range of body sizes up to 300 lbs. Two-way adjustable arms also enable the user to find their maximum armrest comfort.

The **ETC** chair is available with a basic black polyester fabric seat or any HPFi grade-in fabrics. **ETC** chairs can also be shipped RTA (ready to assemble, standard) or fully assembled (optional).

ETC Features

- Adjustable tension, synchro-tilt, locking seat mechanism
- Seat slider seat depth adjustment
- Independent height adjustable lumbar
- Contoured, molded foam seat
- Height and width adjustable, arc surface armrests
- 4" height adjustable pneumatic lift
