

# BOOKCASE LEVELING

**STEP 1:** Use flat head screw driver to turn leveling glides (using groove at tip of glide) through access holes in bottom shelf as shown below.

**STEP 2:** Install (4) Black  $\frac{5}{8}$ " hole covers in access holes, pressing or tapping firmly in place.

5/8" Black hole cover

# ADJUSTABLE SHELF INSTALLATION

**STEP 1:** Install (4) shelf pins per shelf in desired pre-drilled holes, being sure to place all (4) at same level

**STEP 2:** Install adjustable shelf on top of installed shelf pins.
