

58BKIT

Includes: 2 Brackets

8(1/4x20x1-1/4) Bolts

"The Brackets are designed to connect 2 pieces from the Eve Collection. If there is an upholstered arm on 1 of the chairs/loveseat, the 4 slotted holes toward each end of the Bracket should be used. If there is no arm, then the 4 slotted holes in the middle of the Bracket should be used.

Step 1: On the bottom of each side of each chair/loveseat that you are connecting are 4 holes (Figure 1) with threaded T-Nuts installed - 2 toward the front and 2 toward the back. Using 2 of the Bolts, loosely fasten 1 Bracket in the front 2 holes.

Step 2: Using 2 more Bolts, loosely fasten the remaining Bracket in the back 2 holes.

Step 3: Place the chair/loveseat adjacent to the other chair/loveseat. Using 2 more Bolts, securely fasten the Bracket at the back of each piece.

Step 4: Using the remaining 2 Bolts, securely fasten the Bracket at the front of each piece (Figure 2).

Step 5: Once the connected pieces are close to their final placement, securely fasten the Bolts that were loosely fastened in Steps 1 and 2.
