

Flex Wall / Tiers

Tiered Lounge Seating

HPFi

No Tools Needed

Hardware Pre-Installed

Step 1

Place all Flex Tiered Seating in the desired location. Make certain that you have sufficient clearance to attach the Flex Walls to the Flex Tiered modules.

Step 2

The Flex Tiered Seating modules will have four (4) "slotted" brackets factory installed on the back that attaches to the Flex Wall.

Step 3

The Flex Walls will have four (4) "tab" brackets factory installed on the side that attaches to the Tiered modules.

Step 4

With a friend to assist you, lift the Flex Wall approximately 6" off the floor and slide the tab brackets on the Flex Wall into the slot brackets on the Flex Tiered module. Make certain that the brackets are firmly seated and the Flex Wall touches the floor.
