

Flex Tiered Seating offers comfortable, multi-level seating for groups to gather for impromptu meetings or casual gatherings. Ideal for classroom, conference room, lounge or open atrium areas. Flex makes perimeter spaces useful. Two- and three-tier options plus the two-tier corner modules may be grouped and re-configured to create a variety of seating spaces.

Upholsteries used on the tiered surfaces (front) require a Seam Slippage / Seam Strength rating of 40 lbs. warp and weft (fill). Contact HPFi for [additional details](#).

Power Modules can be installed in bottom tier at either left or right of center. Left side facing is standard. Power is not available on inside facing corner unit. See page 130.

FLEX LOUNGE SIN 711-16

Flex Lounge seating bridges the gap between casual Flex Ottoman seating and Flex Tiered seating with a modular lounge approach. Comfortable seats and benches are easily re-configured for meetings or casual gatherings. The Flex Lounge design is based on 20" deep seats and 10" backs to create an endless variety of seating arrangements. 30" high padded backs even make a brief touchdown painless. Flex Lounge also includes 2-sided seating ideal for dining halls.

Power models with 110 volt receptacles and active USB ports can be placed in numerous positions to support our mobile lifestyle - at work or on campus. See page 130 for PowerFlex options.

Flex Collaborative Ottomans

HPFi's fully-upholstered ottomans are available in a wide variety of shapes - cubes, circles, octagonal, two-seat bench or tapers. Other variations include adding angled brushed aluminum legs or a trumpet base to create bistro-height seating. A great way to add extra seating space. Mix and match upholsteries to create colorful seating in children's areas.

Power models with 110 volt receptacles and active USB ports can be placed in numerous positions to support our mobile lifestyle - at work or on campus. See page 130 for PowerFlex options.
